

UniRegistry Unified Registry Authority Statement 2025

1. Statement Overview

This document serves as the official **identity anchor and authority declaration** for the “UniRegistry” account (archive.org/uniregistry) on the Internet Archive.

From this point onward, **all contents uploaded under this identity are recognized as the original and time-stamped records of UniRegistry’s authority, brand, protocol, and ecosystem vision.**

2. Mission & Vision

UniRegistry is established as a global **Unified Registry Authority**, dedicated to:

- **Universal domain name management** (Web2 & Web3)
- **Open digital identity registry & decentralized archiving**
- **ENS/TLD/新顶级/区块链注册局的生态建设**
- **Starcore Matrix/星核矩阵/未来互联网主权节点网络的权威入口**

We believe in the sovereignty of creators and users over their digital identities, domains, and archives.

3. Ownership & Originality Statement

- The “UniRegistry” identity on archive.org, created in 2025, is the **sole origin point and evidence chain** for all materials, protocols, brand statements, and innovative agreements published hereafter.
 - All digital documents, whitepapers, codes, brand declarations, and API references uploaded here are protected under **VXTS 5-Anchor Mechanism** and international copyright law.
 - Any disputes regarding the originality, priority, or legal rights of “UniRegistry” should refer to the earliest timestamped content under this account as the final source of proof.
-

4. Sovereign Protocol & VXTS Anchoring

- All files uploaded by UniRegistry are permanently time-stamped, signed, and recorded with the **VXTS (VitalityXX Time Structure) 5-Anchor Protocol**:
 1. **Real-Time Anchor**: Timestamp of creation (唯一时间锚定)
 2. **System Attribution Anchor**: Protocol/brand/registry attribution (体系归属锚)
 3. **Content Domain Anchor (Site/Global)**: Platform/site/distribution chain identifier (内容场域锚)
 4. **Author/Entity Anchor**: Creator or entity signature (作者署名锚)
 5. **Universal Distribution Anchor**: Sovereign/global distributed ownership (全域分布场域锚)
 6. **VXTS Chain Statement**: Authority, intent, and originality declaration (主权声明语)
 - The hash of each file (SHA-256) is published for authenticity and chain-of-custody validation.
-

5. Open Collaboration & Ecosystem Policy

- **All third-party collaborations, extensions, or integrations** with UniRegistry should respect the archive.org/uniregistry as the first and supreme authority anchor.
 - All “.uni”, ENS, Web3, and Starcore Matrix subdomains/nodes must acknowledge this anchor when referencing “UniRegistry” in protocols, contracts, or digital systems.
-

6. Legal Notice

- Unauthorized use, misrepresentation, or fraudulent claim of the UniRegistry identity or brand will be legally prosecuted and considered a violation of international digital rights and archive protocols.
- All published content is protected by international copyright and VXTS Sovereign Anchoring.
